

**KENTUCKY BOARD OF CERTIFICATION OF WATER TREATMENT AND  
DISTRIBUTION SYSTEM OPERATORS**

**MINUTES OF MEETING**

**June 18, 2009**

**The following are minutes of the Kentucky Board of Certification of Water Treatment and Distribution System Operator's meeting held June 18, 2009 at the Division of Compliance Assistance in Frankfort, Kentucky.**

**Board Members Present**

Dr. Ed Story, Vice-Chairman  
Julie Roney  
Barry Bolin

**Others Present**

Lisa Butler, Division of Compliance Assistance (DCA)  
Julia Kays, DCA  
Melissa Brothers, KWWOA

**I. Call to order**

Ed Story called the meeting to order at 1:35 p.m. Lisa Butler called roll.

**II. Approval of minutes**

A motion to approve the minutes from the May 20, 2009 meeting was made by Barry Bolin. Julie Roney seconded the motion. The motion carried.

**III. New Business**

- A. Training Application Reviews (Addendum 1)
- B. Exam Application Reviews (Addendum 2)

**IV. Communication and Announcements**

Lisa Butler distributed the program's financial summary for May 2009.

Julia told the board that the new drinking water fees should be in effect at beginning of business on 7/3/09, unless the committees meet. She said that wasn't expected.

Julia also gave an update for the board members on the proposed regulation changes. She said there weren't many changes to the regulations as a result of the first stakeholder meeting. The main comment at the second stakeholders meeting related to a drinking water operator in training (OIT) being in direct responsible charge. The consensus of the stakeholders was that an OIT should not be in direct responsible charge. The proposed regulations are being revised to reflect this change.

Julie talked about the changes made by water. She said the majority of people on the work group felt that the regulations should not allow a facility to have an

operator out in the system working when the system is producing water. If a class A plant is producing water the operator must be on site.

She also said that there were no changes to plant classifications. However, the language was cleaned up for the definition of what subclass A and B plants are. The new definition for a subclass A plant is a surface water or groundwater plant that uses full treatment or any component of full treatment

A subclass B ground water system would be any true groundwater system that does nothing but chlorinate. She said that plants would be grandfathered in as DOW moves along.

Julie said the Division of Water plans on filing the regulations next month. Dr. Story asked what the implementation date would be. Julie said it should be in December 2009.

**VI. Executive Session**

Julie Roney made a motion for the board to adjourn into an executive session relating to disciplinary matters. Barry Bolin seconded the motion. The motion carried. The board went into executive session at 1:45.

The board returned from executive session at 2:00 pm.

**VII. Adjournment**

A motion to adjourn was made by Julie Roney. Barry Bolin seconded the motion. The motion carried. The board adjourned at 2:01 p.m.
